

Hosted Exchange

Utilize Enterprise-class communication tools while minimizing your cost and freeing up valuable IT resources.

Forget the hassles, headaches and expense of maintaining your own Microsoft Exchange server, upgrades to the latest version, patching, and ongoing software licensing costs. Instead, enjoy uninterrupted service, easy-to-use functionality, advanced security, and much more. With our Cloud-based, Support+ Hosted Exchange you'll get the tools and administrative control you need for hassle-free business communications.

Manage Your Time Effortlessly & Affordably

For most businesses today, e-mail is a mission-critical tool used as the primary source of business communication internally and with customers. This vital reliance on e-mail communication has significantly increased the number of messages sent and received, the productivity of staff members, and even the speed of business itself. Amid this change, employee expectations have also evolved. Today, employees look for rich, efficient and continuous access to e-mail, calendars, attachments, contacts, and more—no matter where they are or what type of device they are using.

Our **Cloud-based messaging solutions** allow growing businesses of all sizes to experience the Enterprise-level features and functionality of Microsoft Exchange as a 100% software-as-a-services (SaaS) solution for a small monthly fee. This easy to use service offers an intuitive collaboration, capability for improved productivity with anywhere, anytime access!

Stay Safe & Compliant

Our **Support+ Hosted Exchange** solution is a cost-effective way for your business to guarantee the security, industry compliance, and availability of your messaging infrastructure. All of which are vital to the continuity of your business operations. Our hosted service includes business-class email, calendaring, mobile access, security and reliability. Our optional **Message Archiving** is also available to satisfy both internal policies and industry compliance requirements. As a whole, our Hosted Exchange solution provides value to your business by freeing up IT resources, removing costly e-mail threats before they reach your firewall, and providing priceless peace of mind.

Anytime, Anywhere Access

Access your emails via your desktop, mobile device or on the web. Emails, contacts and tasks are fully synchronized with mobile devices such as Windows® Mobile device, Apple iPhone or BlackBerry with optional Blackberry Enterprise Server service.

Easy & Effective Collaboration

Increase collaboration and efficiency through shared scheduling, documents, contacts and email.

Anti-Spam and Virus Protection

Our Anti-Spam and Virus solution, powered by Barracuda Networks, keeps your inbox secure and personnel productive.

Easy Management & Administration

All servers are managed, monitored, and backed-up by us so you don't have to worry about the reliability, performance, security and privacy of your emails. Manage user accounts via the user-friendly web-based Administrative Provisioning Portal or by calling our support staff.

Latest Version of Microsoft Outlook

Get a free licensed copy of the latest version of Microsoft Outlook or Entourage for Mac with every Exchange Mailbox.

Archiving

An optional Message Archiving feature satisfies both internal policies and industry compliance requirements.

Reduced Cost

Support+ Hosted Exchange provides a cost savings with no hardware or software to purchase and no licenses to manage and a flexible month-to-month billing schedule with no long term commitments.

Seamless Scalability

When your company grows, so must your infrastructure at an even faster rate. Our infrastructure and resources allow for additional mailboxes and/or hardware/software resources to be deployed rapidly and easily.

Backup & Data Recovery

Your data is securely backed up multiple times a day and replicated in multiple offsite data centers for redundancy.

24x7x365 Monitoring & Management

Our Support+ Hosted Exchange provides 24x7x365 proactive monitoring. If an issue or outage is detected, our qualified engineers will proactively perform remediation activities to address the issue and minimize the impact and downtime to your business.

Enhanced Security

SSL encryption protects data during email transmission. Our data centers are protected by strict physical and systems security measures and redundancy.

Guaranteed Reliability

Digerati Group's servers are hosted in state-of-the-art data centers, utilizing advanced server virtualization technology to ensure maximum uptime and business continuity. With Support+ Hosted Exchange, we guarantee 99.9% uptime.
